Read the paragraph given below and write the answers of questions on the basis of your understanding of the paragraph: (Q.17 to Q.19)

Language is the ability that separates humans from animals. As humans in society, we use our language ability continuously to communicate our ideas, share our feelings, understand each other and build relationships. Language is an essential key for thinking, learning and making sense of the world around. Language also equips us to revisit events in the past and plan for the future. It also helps us to evaluate our strategies of work and manipulate our own ideas. Most importantly, language serves as a tool to support cognition and vice-versa. Language is crucial for the development of young children. Language development goes hand in hand with growth and maturation of the brain. The early years of life are considered critical period for language development. From birth upto the age of 6 years, children develop language at a very rapid pace. Any stimulation given at this age for language development significantly impacts children. Language occurs both receptively and expressively through listening, speaking, reading and writing.

Based on your understanding of the passage, answer the Question Nos. 17 to 19.

- 17 (i) Which is the ability that separate humans from animals? $2 \times 1 = 2$
(ii) What is the purpose/function of language in a society?
- 18 (i) Why is language crucial for young children? $2 \times 1 = 2$
(ii) Why is the early years of life are considered crucial periods in children?
- 19 (i) What is the period/duration in the life of children during when language develop at a very rapid pace? $2 \times 1 = 2$
(ii) What are the FOUR skills in language learning?

20 Match the Column A with Column B:

1×4=4

Column A	Column B
(a) Early years	(i) Focuses on providing childcare facilities at work places
(b) NFHS-4 data	(ii) Rapid brain development
(c) Maternity Benefit Amendment Act 2017	(iii) Nature
(d) Genes	(iv) Indicates improvement in school attendance

Write True or False for questions number 21 to 23.

- 21 (i) Supervision is very essential for indoor play activities. 2×1=2
(ii) Play activities that involve running, jumping and walking help in large muscle coordination.
- 22 Diversity gives recognition, acceptance and respect to individual differences, irrespective of their origin. 1
- 23 Mother tongue is the language spoken at home. 1

Fill in the blanks.

- 24 (i) Children with _____ issues may experience difficulty in responding to the regular forms of care and discipline. 2×1=2
(ii) Many people with disabilities and their families have _____ awareness of assistive products and services.
- 25 Shoe laces typing are the examples of development of _____ motor skills. 1
- 26 Arranging objects according to their height is an activity of _____ domain. 1

Write one word/sentence answer for questions 27-29.

- 27 (i) Being an ECCE teacher, mention any one intervention you will take for a child having difficulty in reading and writing. **3×1=3**
(ii) Mention a step you will prefer to ensure care and protection for children in an ECCE centre.
